**Don't see your specific brand?** We source across the entire Argentine market — from major retail brands to hard-to-find regional producers. **Request any brand and we'll make it happen.**

## Direct Seller. Not a Broker.

Most Argentine export intermediaries work on commission — adding cost without adding value. PLANETADCLA operates differently: we buy directly and sell directly.

✓ **No commission model — we earn margin, not fees**

We're not a middleman charging a service fee on top of a supplier's price. One party, direct margin, full accountability.

✓ **Any Argentine brand — including hard-to-find producers**

If it exists in the Argentine market, we can source it. From mass-market household names to Patagonian artisans and Andean specialty producers.

✓ **Custom labelling adapted to your destination country**

We manage all labelling adaptations to meet your local regulatory requirements. You provide the label data; we handle the rest.

✓ **Multi-category consolidation in a single shipment**

Order yerba mate, wines, alfajores, and olive oil in one container. We consolidate across categories to maximise your freight efficiency.

✓ **Full export documentation — SENASA certified**

Phytosanitary certificates, certificates of origin, DJE — all included. CUIT 30-71867274-7, registered exporter. Operamos desde Argentina.
